

Radiance™

Economy Floor Stripper

DESCRIPTION

The most effective floor finish emulsifier ever developed. Will solubilize aged and built-up finishes almost instantly. May be used as a no-scrub stripper or with a conventional floor machine and pad depending on the concentration of the product and the condition of the floor.

DIRECTIONS

- Dilute 1:12 (11 oz./gal.) for normal stripping requirements.
- For heavier build-up, dilute 1:2 (64 oz./gal.).
- Apply liberal amounts of solution uniformly to floor with a mop.
- Start with edges to give them more soak time.
- Let stripper solution soak for 2 - 3 minutes.

DO NOT ALLOW SOLUTION TO DRY ON FLOOR.

- Longer soak times may be necessary for heavier build ups.
- Hand or machine scrub using a black pad or stripping brush.
- Pick up all of the solution with a clean mop, wet vac, or automatic scrubber.
- Mop up any tracks left by automatic scrubbers before they dry.
- Thoroughly rinse floor with water, using a clean mop.
- Let floor dry completely before applying floor finish.

NOTE: Asphalt tile and rubber flooring could be affected by stripping solutions in high concentrations. Always test floor before proceeding.

APPLICATIONS

A powerful stripper for removing most water based floor finishes in:

- Schools and offices
- Hospitals & nursing homes

BENEFITS

- Powerful formula
- Free rinsing
- Use less/do more

SPECIFICATIONS
